Profile

Computer Engineering graduate with hands-on experience building responsive and data-driven web applications through Frontend Developer internships at Telkomsel and PT Klik Digital Sinergi. Experienced in React, Next.js, TypeScript, REST API integration, responsive UI, and full-stack workflows. Built applications involving operational dashboards, authentication, data persistence, financing calculations, and incident-management workflows. Seeking a Software Engineer role focused on reliable web applications and practical business systems.

Technical Skills

Programming : TypeScript, JavaScript

Frontend: React, Next.js, Vite, Tailwind CSS,

Application & Data: REST API Integration, CRUD

Responsive Web Design, Progressive Web Apps (PWA)

Workflows, Authentication Flows, MySQL

Tools: Git, GitHub, Linux, Windows

Experience

January 2025 –

February 2025

Jakarta, Indonesia

Frontend Developer Intern

PT. Klik Digital Sinergi

- Developed a responsive internal operations dashboard for company, employee, correspondence, and employment-contract workflows using Next.js and TypeScript.
- Built reusable dashboard, table, form, navigation, search, pagination, and status components across the internal administration modules.
- Implemented CRUD workflows for companies, employees, and PKS, PKWT, and PKWTT contracts, including contract-specific fields, dates, statuses, record details, and user feedback.

July 2024 –

August 2024

Jakarta, Indonesia

Frontend Developer Intern

PT Telekomunikasi Selular (Telkomsel)

- Developed a browser-based Outlet Recognition application for field sampling and provider identification using captured or uploaded outlet-signage images.
- Implemented camera capture, image upload, and dominant-color analysis using JavaScript and the Canvas API.
- Designed responsive validation and result states displaying provider predictions and supporting color evidence for manual review.

February 2024 –

June 2024

Semarang, Indonesia

Teaching Assistant — Basic Computer and Programming

Computer Engineering, Diponegoro University

- Mentored students in programming fundamentals and assisted with Java exercises, debugging, and practical laboratory activities.

Projects

June 2025 – July 2025

SIGAP UNDIP

Project Lead & Frontend Developer | Next.js, TypeScript, Tailwind CSS, REST API

- Led frontend development of a role-based campus safety platform with dedicated responsive workspaces for students, volunteers, and administrators.

- Built end-to-end incident workflows covering multi-category reports with photo and location evidence, searchable report history, status tracking, GPS-enabled panic alerts, and volunteer response handling.
- Developed administrative and volunteer modules for report processing, panic-alert monitoring, volunteer management, operational dashboards, and weekly shift scheduling.
- Integrated authenticated REST API workflows with JWT token refresh, role-based routing, form validation, reusable interface components, and periodic dashboard updates.

December 2025

GASPOL System

Full-Stack Developer | Next.js, TypeScript, MySQL

- Developed a full-stack automotive credit-simulation application covering customer, vehicle, financing, insurance, and document workflows.
- Implemented configurable financing calculations, budget-based recommendations, authenticated access, persistent history, and simulation-status management.

November 2025

Premier League Info System

Frontend Developer — Team Project | React, TypeScript, Vite, REST API

- Built a responsive sports-data frontend for league standings, fixtures, club details, squad management, and score-update workflows.
- Collaborated with a teammate who provided the backend API and implemented typed API integration with loading, error, confirmation, and feedback states.

Education

2022 – 2026

Semarang

Bachelor

Diponegoro University

- Completed all academic requirements; graduation ceremony pending.

Leadership & Activities

May 2024 – May 2025

Himpunan Mahasiswa Teknik Komputer (HIMASKOM)

Head of Student Resource Development

- Led student development and peer-support initiatives that strengthened soft skills, encouraged constructive communication, and provided a structured channel for resolving student concerns.

February 2020 – present

The Multimedia Team of The HKBP Tebet Church

Member

- Supported weekly church multimedia operations, including livestream setup, camera/audio coordination, and on-site technical assistance.

Selected Certifications

Database Design
